

[Baptist Ministries - Baptist Church Directory - Find a Church / Ministry](#) :: Your Favorite Site

Adding a link

Directions for adding your ministry to this portal

At the top menu bar you will see a section "Links: Popular New Pick TopRated Random Add". If you click on "Add" you will be prompted to fill in the details of your ministry. All links are reviewed. By putting in a password, you will be able to change it at a later date. You can also put in a date range for the event so the link will expire when an event is over. Please pick one relevant category when submitting a link. Add additional categories as Key Words in the detailed description if you want. When the site is reviewed we will add additional categories as appropriate. Clicking on the Add section under articles will enable you to add and respond to articles. I am open to suggestions on how we can improve this portal. Bob
