The debt-free, thirty-four acre property had a small auditorium building with an office wing. It has not taken long for more buildings to roll onto the property and get set up to use for Berean Christian Academy and Sunday school space. With a steel structure ready to be built for a new auditorium, the church is working hard to stay out of debt while moving forward with the building projects needed. We are excited about the many opportunities to reach more people in our community. Feel free to join us as we write this exciting chapter of our church history.
