BURNING BIBLES

Have we gone back to the 1600's when they burned Bibles during John Wycliffe's day? This is what happened a little after midnight in Portland the other night. Right here in America, there are some people who have the spirit of Antichrist. They hate God; they hate Christ; they hate the church; they hate the American flag & our country. It's hard for me to comprehend how someone who has grown up in this great country & has enjoyed the freedoms & blessings here like no place anywhere in the world can become so filled with hate for America & God. A preacher friend said to me yesterday, " Burning Bibles today! Torching churches tomorrow! " Wake up, American Christians, persecution is around the corner! What should we do? Let's pray like we've never prayed for God's mercy & help. Let's speak the truth in love asking the Lord to open the eyes of those who are deceived. We can NOT & we must NOT be silent. There is too much at stake. Honestly, I never thought I would see the day that they would burn Bibles. Grieves me in my soul to see people disrespecting our flag & some even burning the flag, but grieves me even more to see them burning Bibles. Others have tried to destroy God's Word, but you can put it down straight & plain— GOD'S WORD WILL STAND FOREVER!
