### Possible Site Outage

The server did go down for several hours last night.

The server apparently is still not stable. Here is the latest from the hosting provider: Again this platform is not very stable for a VPS. I apologize for this, and I am praying about what action to take. The server(s) are paid for January 2024. September 7, 2022 1:55AM PDT[Monitoring] Our technical operations and datacenter personnel have restored full connectivity to all VPS guests impacted by this service disruption. We will continue to monitor the situation and update this post again once we're all clear. September 6, 2022 10:03PM PDT[Identified] Our technical operations and datacenter personnel continue to work on restoring full connectivity to VPS guests impacted by this service disruption. We do not have an ETA on full resolution but will continue to post updates as new information becomes available. September 6, 2022 6:58PM PDT[Identified] Our technical operations and datacenter personnel are still working on restoring full connectivity to VPS guests impacted by this service disruption. So far, 75% of those guests have been restored. We do not have an ETA on full resolution but will continue to post updates as new information becomes available. September 6, 2022 4:40PM PDT[Identified] Our technical operations and datacenter personnel are still working on restoring full connectivity to VPS guests impacted by this service disruption. They have identified the cause of this issue and are rolling out a fix as quickly as possible. We do not have an ETA on full resolution but will continue to post updates as new information becomes available.
