## Outage

### Ticket opened

I opened a ticket for an outage (again). I am going to have to see if this website will fly on the alternate host. I have the VPS for another year, but there are too many outages! Here is their response... Re: Website / FTP not responding Message #: 223184948 Time: 2022-11-29 08:12:35 Hello Bob, Thanks for contacting us. My name is Anthony and I am more than happy to assist you! I checked on the site and it is currently loading for me. It does look like our admins were working on the VPS' host machine and had to restart the VPS machines. I checked on the VPS and it has been up for 14 minutes. If there is anything else you need help with, please let me know! Thanks! Have a great day! Sincerely, Anthony S
