## Hot Deals Club

Welcome to the Hot Deals Club, a collection of websites and RSS feeds built by deal seekers. This website is updated continuously. Unlike other sites that claim advertisements to be "deals" so they can make a quick buck, our goal is to only show the hottest deals available because we love hot deals. We only post deals that we truly feel are hot deals, which is why our users call us the most trusted deals portal site on the Internet. This site is not responsible for any problems or errors with deal listings, thus the information herein is provided for informational purposes only.
