FRC and Regent University Release Joint Study Linking Religious Freedom To Economic Well-Being

<http://www.frc.org/newsroom/frc-and-regent-university-release-joint-study-linking-religious-freedom-to-economic-well-being>

WASHINGTON, D.C. - Regent University and Family Research Council released a new report today titled "Why International Religious Freedom is Vital to International Development: Causal Connections and Policy Recommendations." The report focuses on how agencies responsible for administering America's foreign development assistance should promote religious freedom abroad. This report also points to the evidence that economic growth can only be fully realized for developing nations when religious freedom is protected. ...
