House calls on mt tops...uttermost parts

<http://childrenslighthouse.blogspot.com/2018/03/house-calls-on-mt-topsuttermost-parts.html>

AMEN DAY. House calls on mountain tops.... We saved the hardest for last day of a week of hard soulwinning with our medical team that is visiting. A small field but white unto harvest. Was well ripened fruit on the mountain top. 3 hour very rough ride up. We got a late start because the old kia lost the clutch and was delayed an hour. And opted to split the team and use the new motocarga and see if it would make it.(it did). But the newer kia lost the trailer on the rough trail so yet another delay. Finally arrived and find the building we were to use under construction. Ask around and one man who was present a few weeks ago when I preached up there let us use his small home...on the other side of the riverbed and 100yards up the mountain... and haul all the medical and gear across and up. We saw over 200 souls trust the LORD just in this village... even with a late arrival due to loosing the trailer on the rough road. The Drs managed to see what seemed to be every needy villager for meds and glasses...
