## Provision

<http://childrenslighthouse.blogspot.com/2017/11/provision.html>

Been putting off maintenance of the kia truck(something very contrary to an old mechanic) because other priorities kept pushing to the front of the line. Never enough for all that is before us. That plus our extreemly bad roads has now made this a problem. While in town yesterday it started thumping and growling. Stopped and checked it over and price parts. Needs front end parts, bushings, bearings and tires a little over \$1000 in parts + tires to put it back in safe service. It is needful to ministry runs hours every day and it is crippling when down. Praying the LORD provides a way.
