Editor's Note: This article was originally published in 2017, but is being found by readers in advance of the April 8, 2024 solar eclipse, such that it has made it into our Most Popular articles on CrosswalkHeadlines. On August 21, a total solar eclipse will be visible across the U.S. Hundreds of viewing parties for this amazing and rare astronomical phenomenon have been scheduled from coast to coast, but many Christian leaders believe this event is more than an incredible scientific occurrence.
